| Part Number | Configuration                           |
|-------------|---|
| 373027      | 10" Repair Coupling (BxB)               |
| 373028      | 10" Coupling (BxB)                      |
| 373029      | 10" x 10" x 3/4" TAP TEE (B x B x AWWA) |
| 373030      | 10" x 10" x 1" TAP TEE (B x B x AWWA)   |
| 373031      | 12" Repair Coupling (B x B)             |
| 373032      | 12" Coupling (B x B)                    |
| 373033      | 12" x 12" x 3/4" TAP TEE (B x B x AWWA) |
| 373034      | 12" x 12" x 1" TAP TEE (B x B x AWWA)   |

### Blue Brute® PVC Fittings (CIOD)

Blue Brute fittings are injection molded and are even tougher than the pipe. Injection molded Blue Brute fittings have a wall thickness 125% larger than SDR18 pipe, and custom-made fabricated fittings are wrapped with a tough layer of fiberglass for extra protection.

All Blue Brute fittings are shipped with standard gaskets that accept cast-iron-sized PVC pipe. Transition gaskets for IPS-sized pipe are an option for all sizes. For applications where fittings must be buried in soil with hydrocarbon contamination, Nitrile gaskets are available.

### FEATURES & BENEFITS

- A thicker bell that results in a more robust fitting.
- Fittings labeled with the O.D. for easy identification and restraint selection.
- CIOD, IPS and Nitrile Gasket Options
