

EDUCATING

ENGINEERS

E^xperience. The Difference.

Endura® Grease Management offers many opportunities for consulting-specifying engineers, building owners, contractors, and service technicians to learn more.

Endura products have been instrumental in changing the traditional practices regarding the installation of grease management solutions – plastic alternatives to metal and concrete grease interceptors are being increasingly accepted Nationwide as the new standard for FOG (Fats, Oils, and Grease) management in commercial foodservice applications.

Endura products are third party certified, multi-patented and built to withstand the toughest environments, providing the flexibility of in-floor, on-floor and semi-recessed application. Better by design and technology, Endura products have demonstrated effective, efficient and consistent performance with over a decade of field installation and operation.

Durability

- Fewer installations and replacements result in lower lifetime costs and landfill waste
- Injection molded in engineered thermoplastics – won't corrode, chip, or peel, even under severe applications
- Durability provides consistent operation – no compromise due to deterioration of key components

Green by Design

- Light-weight durable units enable smaller carbon footprints via low-emissions vehicle transport
- Thermoplastic requires less energy to produce than metal counterparts
- Manufactured using up to 100% recompounded material

Rethinking Grease Interception

At Endura®, we believe that interception is the best defense. That's why we work with cities, municipalities and regulatory agencies across the U.S. to develop long-term solutions that benefit everyone.

Engineering a Cleaner Future with You

End-to-end support; from designing and installation to an ideal maintenance schedule – we'll be there with you.

Visit us at www.EnduraGreaseManagement.com for more information on ways to manage FOG (Fats, Oils, and Grease) in your area.

Our continuing education course is available at www.AECDaily.com
