MJ Grey Mechanical Couplings offer installers an alternative joining method for System 15 and System XFR.

MJ Grey Mechanical Couplings are advantageous in cold weather as an option to solvent welding, repairs or tie-ins and for limited joint deflection in difficult installation areas.

System 15 and System XFR are regarded as the premium nonmetallic DWV systems used in Canada.

Together with this new expanded offering of MJ Grey Mechanical Couplings, IPEX remains the industry leader with the most complete offering of pipe, fittings and couplings.

Available now through all stocking System 15 and System XFR distributors.
