

## PRESS RELEASE

### **New IPEX Distribution Centre in Garland, Texas**

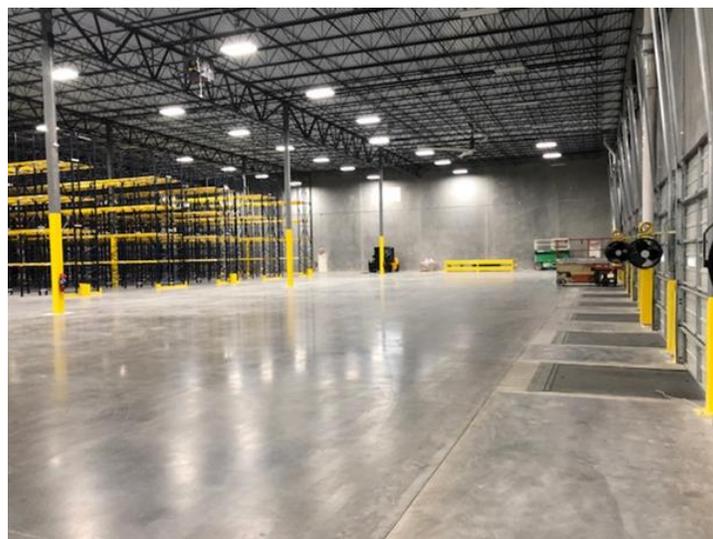

Garland, Texas, June 23, 2021 – IPEX is pleased to announce that the company has once again expanded its warehousing and distribution capabilities with its newest distribution centre (DC) in Garland, Texas.

Located at 2850 Marquis Drive, the new facility replaces IPEX's significantly smaller Houston DC, giving the company more than three times the warehouse space in the area.

*"The DC is the newest facility in our multi-year strategy to expand our footprint in the United States,"* said Alex Mestres, IPEX's Chief Executive Officer. *"In doing so, we continue to focus on our customer-first culture by having what our customers want when they want it."*

Currently stocking industrial products (pipes and fittings), future growth and expansion potential in Garland could see the remainder of the company's product lines stocked in the Garland facility. The DC serves IPEX's customers in Texas, Oklahoma, Arkansas, Mississippi, and Louisiana.

IPEX will continue to execute on its strategy to expand its warehousing capabilities with focus on the southern and western United States in the second half of the year.
