

IPEX TKD 3-Way CPVC Ball Valve

After setting the standard in 3-way PVC valves since 2008, IPEX offered the TKD in CORZAN CPVC. This development further enhances the TKD's status as the industry leader in thermoplastic 3-way valves. It is available in both T and L port versions, with EPDM or FPM seals, and PTFE seats.

Pressure & Temperature Ratings

Valve Availability

Size Range	1/2" to 2"
Valve Material Body, Stem, Ball, Unions, Connectors	PVC, CPVC
Valve Construction	Molded with three (3) true union ports
Valve Design	Positive shutoff of all ports with Dual Block®
Valve Body	Same thickness at all ports
Port Design	All 3 ports feature Seat Stop® carriers with inline micro-adjustment
Seats	Four (4), Teflon® (PTFE)
Seal Material	EPDM, FPM (Viton®)
Valve Functions	T-port, L-port
End Connections	Socket (IPS), Threaded (FNPT)
