

## ABS Backwater Valves

IPEX has modified the product offering of ABS Backwater Valves (BWV's) with a few minor design enhancements. These include a different sealing mechanism for the flapper disk and some external dimensional changes.

Description (inches)	Product Code
1-1/2 BWV	017009
2 BWV	017010
3 BWV	017011
3 BWV (with chimney)	017014
4 BWV	017012
4 BWV (with chimney)	017013

The Canadian price list has been modified to reflect these new part numbers. For existing IPEX ABS BWV's still in service, IPEX will continue to offer replacement parts (flapper disks, caps, and chimneys) as required.

### Features and Benefits:

- Lightweight, corrosion resistant, and easy to install
- Arrows clearly indicate the flow direction
- Access chimneys and plugs are available to facilitate installation under floor slabs
