

## Duraflo® Flexible Base Roof Flashing

Installed over a 4 inch plumbing vent stack to seal the roof opening, the Duraflo® Flexible Base Roof Flashing is made to withstand extreme cold weather conditions. This engineered material stays flexible in extreme cold conditions and accommodates a wide variety of pipe sizes.

Available with a 1-1/2", 2", 3" or 4" opening. The Flexible Base Roof Flashing out performs in cold weather.

### Flexible Base Roof Flashing (12/carton)

Pipe Size	Part Number	A	B	C
1-1/2"	551141BL	13"	15"	3.5"
