

Duraflo® Square Top Roof Vent

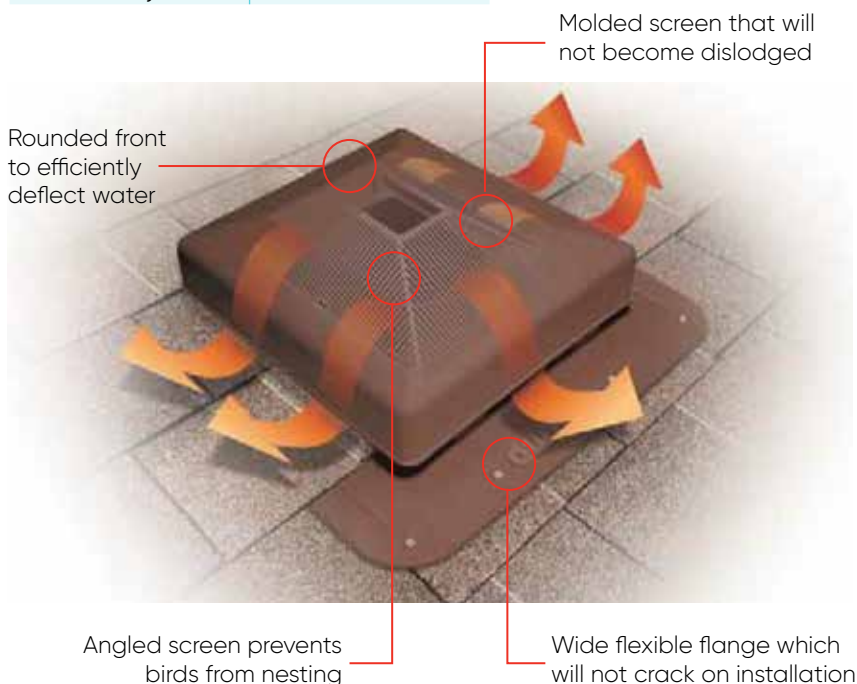

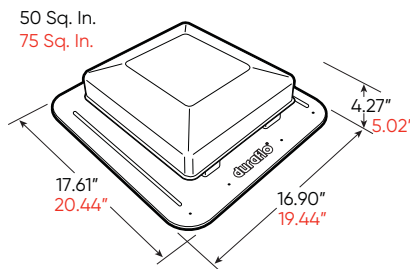

Duraflo® Square Roof Vents are made from durable polypropylene and feature a bird-proof screen and rain channels to ensure nothing gets in while hot air is getting out. Install the Duraflo Square Roof Vent on a sloped, shingled roof within 24 inches of the roof's peak to ventilate hot, moist attic air as a part of a balanced ventilation system.

Square Top Roof Vent 50 sq. in. (10/ctn)
