

Duraflo® 6065 Slant Back Roof Vent

Particularly useful on steeper pitched roofs; the redesigned Duraflo® 6065 Slant Back Roof Vent carries on the tradition of quality and innovation you would expect.

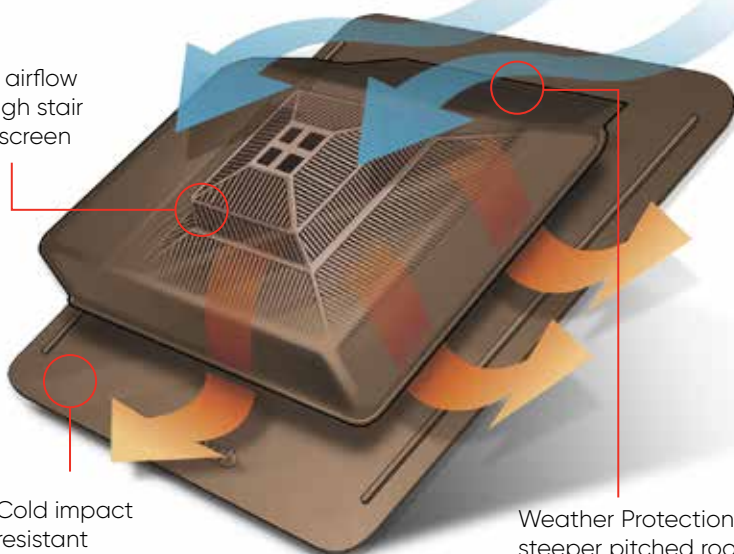

The old fashioned metal screen was replaced with a stair step molded-in grill. This code approved grill with it's unique design allowed for an increase in the airflow without having to increase the size of the vent. Also potential leaks were eliminated by sonically welding the slant of the cap directly to the roof vent skirt creating a solid, leak-proof bond.

6065 Slant Back Roof Vent 17.25" x 18.25" x 4.14" (12/carton)

Color	Part Number
Black	6065BL
Brown	6065BR
Gray	6065G
Weatherwood	6065WW

More airflow through stair step screen

Cold impact resistant

Weather Protection for steeper pitched roofs

Features:

- 61 sq in. of net free area
- Ideal for steep pitched roofs up to 14/12
- Prevents birds from nesting
- Won't crush, dent or peel
- Cold impact resistant down to -40°
- UV resistant polypropylene

Standards:

CSA and
TDI approved
