

NEW PRODUCT SHOWCASE

Corner Mounting Tabs Now Available on all Deep Round Series Kwikon Slab Boxes

Designed to withstand tough jobsite environments, Kwikon® ENT slab boxes are nonmetallic, nonconductive and non-corroding. All Deep Round Series Slab Boxes feature our new **Corner Mounting Tabs** as a second mounting option. These uniquely positioned corner tabs allow contractors to easily nail Kwikon slab boxes to the slab deck.

The angled design guides the nail to be positioned inside the fixture's trim cover, reducing the threat of visible rust bleeding through the finished ceiling.

Approved for support of ceiling fans up to 35 lbs. and luminaries up to 50 lbs, slab boxes are supplied as a fully assembled one-piece unit. All molded connectors have 360° locking tabs that exceed UL and CSA requirements for pull-out.

FEATURES & BENEFITS:

- Corner and traditional mounting tabs offer contractors two options when installing to the slab deck
- Angle design guides the nail into position within the trim cover area
- Ready to install – no assembly required
- Supplied with threaded brass inserts (10/32" for ceiling fans, 8/32" for light fixtures)
