

Vinyl Institute Awards

The 2015 Partner Leadership Award

The 2015 Vinyl Institute Partner Leadership Award was presented to Veso Sobot and Alain Storet, two industry leaders who demonstrate a consistent commitment in supporting industry-wide initiatives.

As the Director of Corporate Affairs at IPEX and chair of the Vinyl Council of Canada, Veso advocates for transparency and open competition for IPEX; he also leads the vinyl industry in holding organizations accountable for disparaging remarks about vinyl products and the industry as a whole. Veso's commitment to uncovering the truth and providing science-based information, and to sharing his knowledge and experience with the industry, has benefited everyone.

Alain Storet is the CEO and president of Pipelife Jet Stream and acting chair of the PVC Pipe Association.

Both Sobot and Storet are active in the Vinyl Institute and the PVC Pipe Association and have been consistent supporters of the Vinyl Institute's congressional fly-ins and other advocacy efforts. They are true vinyl advocates and well deserving of sharing the 2015 Vinyl Industry Partner Leadership Award.
