

ABS BACKWATER VALVES

PRODUCT INFORMATION BULLETIN

ABS Backwater Valves with New Enhancements

IPEX has modified the product offering of ABS Backwater Valves (BWV's) with a few minor design enhancements. These include a different sealing mechanism for the flapper disk and some external dimensional changes.

As a result, new product codes will be used for the ABS BWV product line. The new codes are shown below:

FEATURES & BENEFITS:

- Arrows clearly indicate the flow direction
- Access chimneys and plugs are available to facilitate installation under floor slabs
- CSA certified

Description – ABS	Product Code	
	Old	New
1-1/2" BWV	017491	017009
2" BWV	017492	017010
3" BWV	017495	017011
3" BWV (with chimney)	017493	017014
4" BWV	017494	017012
4" BWV (with chimney)	017496	017013

The Canadian price list has been modified to reflect these new part numbers. For existing IPEX ABS BWV's still in service, IPEX will continue to offer replacement parts (flapper disks, caps, and chimneys) as required.
